## SKILLS

### Programming Languages

JavaScript (ES6+), Typescript, HTML, CSS

### Front-end Technologies

Angular, HTML5, CSS3, Bootstrap

### Back-end Technologies

Node.js, Express

### Database

MongoDB

### Version Control

Git, GitHub, GitLab, AWS(Code-commit)

### Tools

NPM, Webpack

### Others

Knowledge of RxJS, NgRx, Karma, Agile and JIRA

## PERSONAL INFORMATION

### Date of Birth

18 March 1997

### Gender

Male

### Nationality

Indian

### Hobbies

Learning new technologies, traveling, listening to music.

## ACHIEVEMENTS

- Received the "Always Growing Award" in 2023 for consistent contributions to organizational growth.

## PROFESSIONAL EXPERIENCE

### TRANSNEURON TECHNOLOGY, Bangalore

#### MEAN Stack Developer

##### July 2022 - Present

- Developed scalable web applications using MongoDB, Express.js, Angular, and Node.js, ensuring performance and reliability.
- Integrated Angular components with RESTful APIs built with Node.js, Express, and Golang, enabling seamless data flow across microservices and enhancing system efficiency.
- Collaborated with cross-functional teams to analyze requirements, design solutions, and implement new features, driving project success.
- Worked closely with UI/UX designers to ensure responsive, intuitive, and user-friendly interfaces, enhancing user experience.
- Provided proactive production support, identifying and resolving issues quickly to ensure system stability and improve customer satisfaction.

### iGap Technologies, Kolhapur

#### Front-End / Angular Developer

##### Jan 2022 - Jun 2022

- Developed and maintained web applications using HTML, CSS, JavaScript, Bootstrap, and Angular.
- Worked on MEAN stack projects to build responsive and user-friendly interfaces.
- Collaborated with clients to understand requirements and deliver timely solutions.

## PROJECTS

### SKILL INDIA PORTAL

A government initiative aimed at enhancing workforce skills across India.

- Developed and maintained the application using Angular, Node.js, MongoDB, Golang, and AWS.
- Integrated front-end and back-end services for seamless performance and scalability.

### IV Universe

An online event booking platform for managing and scheduling events.

- Built the application using the MEAN stack to support booking and user management.
- Implemented dynamic UI components in Angular for a responsive user experience.

### Field Service Management

A corporate website for showcasing services and offerings.

- Designed and developed a responsive landing page using HTML, CSS, Bootstrap, and Angular.
- Focused on clean layout, mobile responsiveness, and optimized loading performance.
